## **Certification of New Battery Condition in Shipment**

To Whom It May Concern,

As the shipper or the shipper's authorized representative, I/we, \_\_\_\_\_, hereby certify for the shipment under reference number (P/O, Sales#) \_\_\_\_\_ that, should this shipment contain any batteries, such batteries are new and have not been previously used. This certification ensures compliance with all applicable airline and federal regulations related to the transport of batteries and other potentially hazardous materials.

I/we fully understand and accept liability and legal responsibility for any claims, penalties, damages, or losses that may result if any batteries included in this shipment do not meet the condition of being new. Additionally, I/we affirm that all details regarding the batteries' condition, specifications, and adherence to safety standards are accurately documented in accordance with the shipping documentation provided.

### **Acknowledgment and Agreement**

By signing below, I/we acknowledge having read and understood this certification and agree to comply with all regulations and requirements as outlined by MSL Global Express Inc. regarding the transportation of batteries in shipments. This includes ensuring that any batteries contained within the referenced shipment are new, conforming to safety and transportation regulations.
